

ABOUT COCHRANE SUPPLY

Cochrane Supply & Engineering was founded in 1967 and has grown into a multi-award-winning company and a **Leading Industrial IoT Supplier**. Cochrane Supply is proud to continue to be your source of building controls products, technology, and information. Representing the industry's top manufacturers, Cochrane Supply's diverse product lines blend innovation and solutions for successful facility management when it comes to HVAC, security, refrigeration, lighting, and more.

The company's customer-centric staff has been connecting integrated building systems to the internet for more than 15 years, staying at the forefront of smart building controls solutions and leveraging the growing possibilities of the Internet of Things (IoT). Whether it's a project for a new building, or a retrofit for a current one, Cochrane Supply is your source for information and building automation controls.

YOUR LOCAL BRANCH

With six Cochrane Supply locations, you get access to inventory, hardware support, a highly-trained staff, and a collaborative partnership. The result? The tools you need to functionally integrate, accomplish new functional capabilities, and ultimately, **be successful** in the industry.

SOFTWARE SUPPORT

Cochrane's **Software Support Services** team has the extensive technical knowledge to provide support and development for a wide variety of hardware and software manufacturers. Services include tech support, software development, software licensing, consultation, news announcements, and much more.

TRAINING NEAR YOU

Through our comprehensive, world-class training programs, you will gain the knowledge you need to succeed. Many of our training classes can be customized and held at your site or in our training facilities.

View our training calendar online at www.cochranetechservices.com.
